

Protocol Data Breaches

1 REPORTING A BREACH

If any member suspects a data breach has occurred within Dorans, they need to contact Stijn Everink via mail (secretaris@dorans.nl) or telephone (+316-81907988) to report this.

2 REPORT PROCESSING

The above-mentioned will ascertain whether a data breach has in fact occurred, based on the guidelines set out by the Autoriteit Persoonsgegevens (<https://autoriteitpersoonsgegevens.nl/sites/default/files/atoms/files/handleidingalgemeneverordeninggegevensbescherming.pdf>) (PDF is in Dutch). We will include a report in our register for data breaches.

If there is found to be a data breach, we will report this to the Autoriteit Persoonsgegevens. The board will then inform all affected members of the leak and will take precautions so a similar breach will not occur again.

3 DATA BREACHES AT THIRD PARTIES

If a data leak at one of the third parties that have access to personal data, provided by Dorans, the board will inform all affected members and include this leak in our register.

4 REGISTER DATALEKKEN

The register for data breaches can be found at: <https://dorans.nl/beleidsdocumenten/>
